

AWARDS BROCHURE

Bespoke and Sustainable

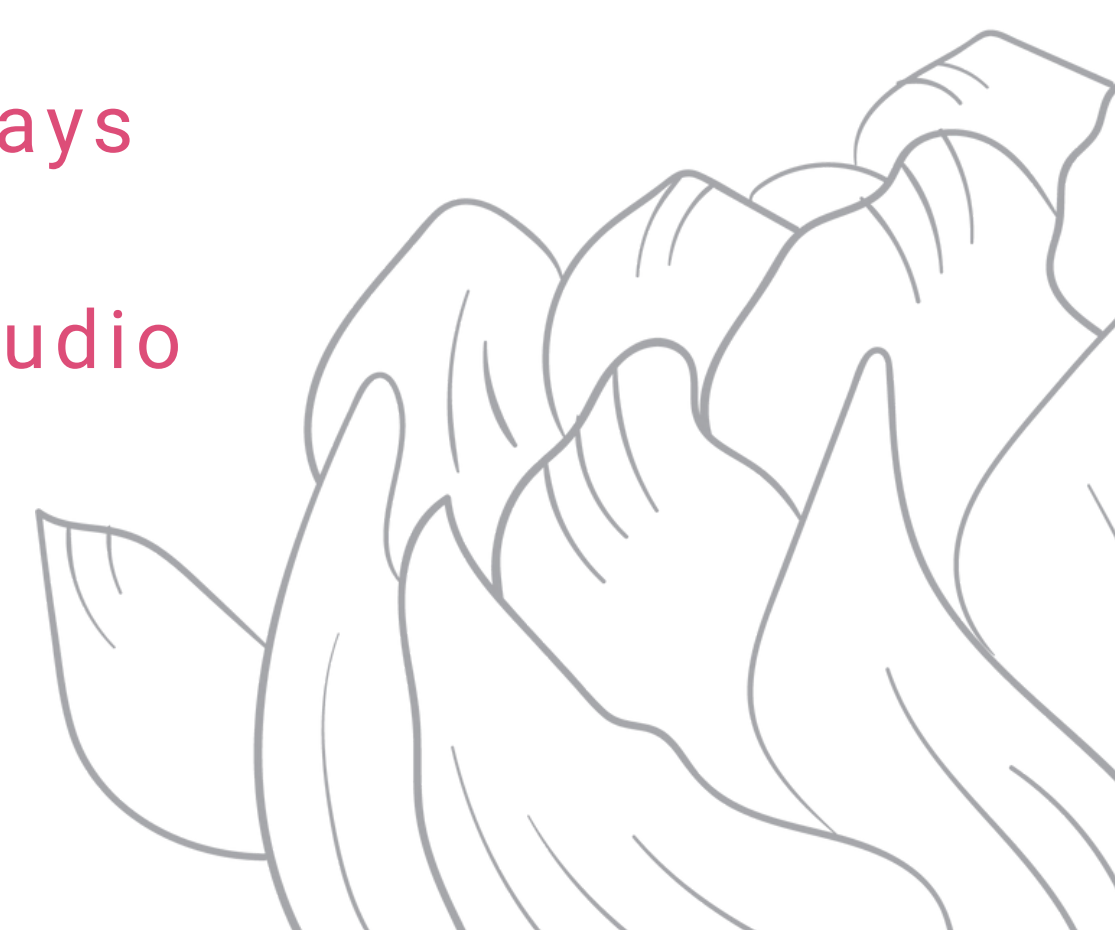

We help organisations to stand out from the crowd with beautiful, sustainable and bespoke awards. We create awards that bring the WOW factor to make your people feel special.

Your winners will be really proud of receiving these awards, which will help you to raise your profile too.

We are passionate about quality products that are personalised or unique for each organisation. We always use sustainable and reclaimed materials. Everything is designed and handmade in our design studio and workshop in Sunny Bank Mills.
